Dear Community Leader/Elected Official:

On April 16, 2021, New York enacted the Comprehensive Broadband Connectivity Act, which directed the Public Service Commission (Commission) to prepare an annual study of the availability, reliability, and cost of high-speed broadband service in New York State. The Commission released its first interactive broadband map and report in June 2022 and subsequent reports in June 2023, September 2024, and June 2025.

In preparation for the 2026 map and report, the Commission invites public comment regarding the availability, affordability, and adoption of broadband internet access across New York State. The purpose of the study is to ensure that all New Yorkers have the necessary access to affordable broadband service.

The Commission would like to hear from the public about:

- Locations where broadband service with at least 25 megabits per second (Mbps) downstream and 1 Mbps upstream is not available as well as barriers that limit broadband availability;
- Locations where the offered download speed is greater than 25 Mbps but less than 100 Mbps downstream;
- Locations where there is only one broadband internet service provider; and
- Locations where broadband internet service is too costly for some consumers or businesses, and the size of the cost barriers.

To ensure full public participation, the Commission will hold virtual public statement hearings on **March 25, 2025**, to solicit input and comments from your community regarding the Broadband study and map. The enclosed announcement provides detailed information on how to participate in the hearings and how to submit comments.

Information regarding the case, including instructions for digitally submitting a comment, can be found at www.dps.ny.gov. From the homepage, click "File Search" (located under the "Commission Files" header) and enter the case number (22-M-0313) in the "Search by Case Number" field. For information about the study and survey, visit <https://mapmybroadband.dps.ny.gov>.

I would appreciate your assistance in informing your constituents about the public statement hearings and encouraging them to provide comments. The Commission intends to facilitate and promote active and meaningful participation throughout all its proceedings. We hope you will consider joining us.

Regards,

Alex Karman

STATE OF NEW YORK
PUBLIC SERVICE COMMISSION

CASE 22-M-0313 - In the Matter of the Commission's Broadband Study and Mapping Pursuant to the Broadband Connectivity Act.

NOTICE OF PUBLIC STATEMENT HEARINGS
AND REQUESTING PUBLIC COMMENTS

(Issued February 24, 2026)

Public Service Law §224-c, enacted on April 16, 2021, directs the Public Service Commission (Commission) to study, on an annual basis, the availability, reliability, and cost of high-speed broadband service in the State to ensure that all New Yorkers have the necessary affordable access going forward. Public Service Law §224-c also requires the Commission to submit a report of its findings and recommendations to the Governor, the President Pro Tempore of the Senate, and the Speaker of the Assembly. The Commission is in the process of preparing its fifth annual report.

Public comment is invited concerning the availability, reliability, and affordability of residential and commercial broadband internet access services in the State of New York. Two virtual public statement hearings will be held to obtain public comment on these topics. Public comment, and especially the personal experience of commenters, should address topics including, but not limited to:

- Locations where broadband internet service with at least 25 Megabits per second (Mbps) downstream and 1 Mbps upstream is not available, and what barriers are in place that limit its availability;

- Locations where the offered download speed(s) of internet service are greater than 25 Mbps but less than 100 Mbps downstream;
- Locations where there is only one broadband internet service provider;
- Locations where broadband internet service is too costly for some consumers or businesses, and the size of the cost barriers.

Public comment is requested from individuals; internet service providers; labor organizations; public safety organizations; and healthcare, educational, agricultural, and other businesses and organizations.

Each public statement hearing will be preceded by a brief informational session at which Department of Public Service (Department) staff will outline the Department's information gathering process.

All New York State residents, whether or not they make statements at the hearings, are strongly encouraged to participate in the Department's data gathering project by completing a broadband speed test and survey available at <https://mapmybroadband.dps.ny.gov>. This survey may be completed online at home, on cell phones, or at local libraries with internet access. New York State residents unable to take the survey online due to lack of connectivity should contact the Department's toll-free hotline at 1-855-NYBBMAP (1-855-692-2627) to request that a paper version of the survey be sent to their homes with a return envelope and pre-paid postage.
